**GENERAL
ELECTRIC
RANGE™**

If you own a General Electric Automatic Range, you have only to put the food into the oven, set one or two dials—and you're free to go out for the day. No need to be there to tend the oven—on the G-E timer does that automatically! It maintains correct temperature and turns the oven off when the meal is cooked—retaining enough heat to keep the food hot.

Electric cooking, on a G-E Range, with its timer, keeps meals at table-ready temperature—so you do not cook every meal separately, unevenly. It's such clean cooking—no blackened pots or walls. It's such successful cooking—G-E controlled heat takes away the guesswork and prevents spoilage and waste.

Today only a limited number of electric ranges can be built. You may have to wait until your General Electric Dealer can supply you. But—a G-E Range is worth waiting for!

General Aspinwall was a crusader for Standard. As an attorney-general he supervised all oil tax operations. He pressed for the taxes, wrote the laws, collected money for the cause. He even promoted the Wicks measure, using its constituents' names when the measure was introduced in the House. Yet he and his wife did not buy the house. Despite that the Wicks measure should be passed, because integrity in oil marketing, finance and taxation has remained that it should never be in state and national wealth.

When I retired, we had other obligations to meet. There was very little left for savings, though I know that in the future my earnings would increase.

Home sweet home seems twice as sweet to most folks when friends and neighbours drop in and hospitality reigns supreme—with fun and food and good refreshment. That's the time when Coca-Cola, served icy-cold right out of the refrigerator, is not only a delicious

treat—but a symbol, too, of good fellowship and understanding among friends. Be sure to keep Coke in your icebox. There's no more cordial way for a hostess to show her gracious feeling than by offering guests that always-welcome invitation *Have a Coke.*
